RE: Cancellation of EPA SLN Registration WA-970008

Dow AgroSciences has voluntarily cancelled Washington Special Local Need (SLN) registration number WA-970008 for use of Lorsban 4-E (EPA Reg. No. 62719-220) on grapes to control grape mealybugs and cutworms. WA-090002 for use of Lorsban Advanced (EPA Reg. No. 62719-591) on grapes was issued as a replacement SLN.

Attached is a copy of the letter from Dow AgroSciences to cancel this SLN.

Sincerely,

PESTICIDE MANAGEMENT DIVISION

LORSBAN-4E: EPA REGISTRATION NUMBER 62719-220
VOLUNTARY CANCELLATION FOR 24C SPECIAL LOCAL NEEDS LABELS

Dow AgroSciences (DAS) wishes to support EPA clean-up efforts related to Special Local Needs (SLN) 24(c) registrations for Lorsban[®]-4E (EPA Reg. No. 62719-220) which are no longer active and/or have been superseded by Section 3 main labeling or SLN's for other chlorpyrifos-containing products. As you are aware, several SLN's for the new product Lorsban[®] Advanced (EPA Reg. No. 62719-591) have been established and DAS has requested voluntary cancellation for the comparable Lorsban-4E SLN's in several phases. Last week DAS requested voluntary cancellation of the final list of remaining Lorsban-4E SLN's to complete this changeover process. Since that time, we discovered that three SLN's had inadvertently been left off this list, so we are sending a follow-up request.

In accordance with FIFRA Section 6(f)(1), DAS hereby requests voluntary cancellation of the following Special Local Needs 24(c) registrations for Lorsban-4E (EPA Reg. No. 62719-220):

<i>SLN Number</i>	<i>Crop(s)</i>	<i>Pest(s)</i>
WA-970012	cottonwood/poplar trees grown for pulp	Various
WA-990015	perennial grass seed crops	billbugs
WA-970008	grape	grape mealybugs

DAS will notify the respective state regulatory agencies of this request and intends to withdraw distribution/posting of these SLN's at this time. If you require additional information, please contact me at phone 317-337-4654 or Regulatory Specialist Cindy Loy at phone 317-337-4655.

Sincerely,
